Mehmet Emin Güvercin

Computer Engineer

Istanbul, Türkiye | m.guvercin34@gmail.com | Linkedin | Github | 05348240436

http://meguvercin.com/

Profile

Experienced in artificial intelligence and data science, with a strong track record of developing innovative projects in these fields. Demonstrated problem-solving skills and creative thinking abilities through participation in numerous hackathons and ideathons. Dedicated to providing cutting-edge AI solutions to leading technology companies

Professional Experience

Software Developer Intern   07/2024 – 10/2024
Altınay Robot Technologies 🔗   Istanbul

- Optimized palletizing processes by creating algorithms to efficiently layer objects of various sizes on pallets.
- Contributed to software development in C♯, including coding, testing, and debugging for robotic projects.

Software Engineer   09/2023 – 12/2023
42 Kocaeli 🔗   Kocaeli

- After successfully passing a two-stage selection process, participated in the main training where foundational knowledge of the C programming language was acquired.
- Proficiency in using Git and Bash was developed, and the opportunity to write a personal C language library was realized

Education

Computer Engineering B.S   2020 – 2025
Dogus University 🔗

Skills

Python, Git, C, Machine Learning, Data Science, Java, C++, Machine Learning, C♯, .NET, SQL, Office Programs, OOP

Languages

- Turkish (Native)
- English (Advanced)
- German (Elementary)

Certificates

Technology Literacy Program 🔗
Akbank Youth Academy - 2024

Machine Learning 🔗
Stanford University - 2024

ACT28 Hackathon Program 🔗
Samsung & UNDP - 2024

Development Journey Program 🔗
Insider - 2024

MUNDP 🔗
Kabataş School - 2017

MUNDP 🔗
The Koç School - 2017

Courses

Akbank Youth Academy | Technology Literacy Program   06/2024 – 07/2024

Organizations

AIESEC Istanbul | B2B - Team Member   06/2024 – 09/2024
